

**IMPORTANT INFORMATION ABOUT YOUR PLAN**

- ▶ This schedule of benefits provides a listing of procedures covered by your plan. For procedures that require a copayment, the amount to be paid is shown in the column titled "Member Pays \$." You pay these copayments to the dental office at the time of service.
- ▶ You must select a United Concordia Primary Dental Office (PDO) to receive covered services. Your PDO will perform the below procedures or refer you to a specialty care dentist for further care. Treatment by an Out-of-Network dentist is not covered, except as described in the Evidence of Coverage.
- ▶ Only procedures listed on this Schedule of Benefits are Covered Services. For services not listed (not covered), You are responsible for the full fee charged by the dentist. Procedure codes and member Copayments may be updated to meet American Dental Association (ADA) Current Dental Terminology (CDT) in accordance with national standards.
- ▶ In-Network Dentists will charge an additional \$125 for the use of precious (high noble) or semi precious (noble) metal.
- ▶ For a complete description of your plan, please refer to the Certificate of Coverage and the Schedule of Exclusions and Limitations in addition to this Schedule of Benefits.
- ▶ If you have any questions about your United Concordia dental plan, please call our Customer Service Department toll-free at 1-866-357-3304 or access our website at [www.UnitedConcordia.com](http://www.UnitedConcordia.com).

# Governing Administrative Guidelines

## ***Optional Treatment***

Most dental conditions can be treated by two or more separately suitable dental procedures.

Sometimes, a condition can be treated with more than one covered service. In such cases, the copayments for the alternative service will apply, based on Your Schedule of Benefits.

Sometimes, a recommended treatment or procedure is not covered, but is suitable to treat the same condition. The cost of the optional, non-covered treatment You and Your provider have agreed to, will be Your responsibility and will be based on the dental office's usual fees for the service.

The cost for optional cosmetic or restorative material upgrades You may request or may be recommended by Your Primary Dental Office will be Your responsibility. Additional charges for cosmetic upgrades to covered crowns or bridges, partials, or dentures, are not covered by the Plan and You will be responsible for the upgraded fee(s) in addition to the Copayments for the covered service(s).

## ***Fixed Prosthetics (Bridges)***

**Services must be diagnosed and prescribed by the participating provider to be eligible for coverage.**

### **The member is eligible for fixed bridge restoration when:**

- there is a posterior one-sided space involving one or two adjacent teeth, and front and back anchor teeth;
- the bridge will replace incisor teeth missing in the upper or lower anterior segments defined as cuspid to cuspid (#6-11 or #22-27);
- anchor teeth and occlusion are clinically healthy, resulting in a favorable prognosis.

### **The Plan does not cover a fixed bridge when:**

- there are missing teeth on both sides of the mouth in the same arch (bridges currently in place are not considered missing teeth unless unserviceable). \*
- anterior (front) and posterior (back) spaces (missing teeth) are present in the same arch. In this case, a partial denture is the covered benefit.\*
- replacing a serviceable partial denture or fixed bridge;
- the bridge is used to realign misaligned teeth, including diastemas (spaces between teeth);
- the member is under the age of 16 and having permanent teeth replaced;
- one or more anchor teeth is an implant.
- Any restorative process that requires either replacement and/or restoration with bridge(s) or crowns, involving seven (7) or more posterior units, or more than ten (10) units total, will be considered full mouth rehabilitation, and not covered.

\*Note: The term "missing teeth" does not include third molars for the purpose of this guideline. In addition, missing teeth do not apply to this guideline if the resultant space is closed to less than 1/2 of the width of a bicuspid.
